

FOLLOW THESE INSTRUCTIONS TO START MAKING SALES WITH SHOPIFY USING THE \$5/DAY AD SYSTEM

STEP 1: Register Your Free Shopify Trial Account

Sign up for a FREE 30-day trial with Shopify using the Tecademics link below. This allows us to help you succeed with your store. Shopify allows you to build a store with no design skills, no coding, no experience, and you don't need to have any products yourself. You simply sign up and begin going through our training to set up your store to start making money!

<http://shopify.com/tecademics>

***NOTE - You can easily change your store name at any time! Set up a store RIGHT NOW with any name you like so that you lock up the amazing discount that Shopify has given us!**

Month 1 = FREE

Month 2 = 50% off all plans

Month 3 = 50% off all plans

**** Your Shopify back office won't reflect this deal because it's very NEW and EXCLUSIVE to Tecademics so they don't have it programmed in visually yet - but this WILL be your discount.*

STEP 2: Activate Your Store by Choosing a Plan

We highly SUGGEST that you upgrade your account to the \$79/mo Shopify plan. This is the plan that unlocks 5 staff accounts (which we will teach you how to use), as well as unlocking better reporting features for you and much more. You need to activate a plan in order to start making sales. You can choose a lower plan if you want, but the \$79/mo plan is suggested.

Click the unlock it RIGHT NOW and you will NOT BE CHARGED until your trial period is over. But the features of your store cannot be unlocked until you choose this plan. Many of our students were running into problems, and upgrading to this plan solved them. So upgrade right now!

The screenshot shows the Shopify 'Pick a plan for your store' page. The page title is 'Pick a plan to use when your free trial ends'. Below the title, there is a note: 'There is no risk—if Shopify isn't right for you, cancel before [] and we won't charge you.' A URL 'www.shopify.com/tecademics' is displayed. The page features three plan options:

- Basic Shopify:** \$29/month. Description: 'Start selling your products on your secure and beautiful online store with low credit card rates.' Credit card rates: Online: 2.9% + 30c, In Person: 2.7% + 0c. Staff accounts: 2.
- Shopify:** \$79/month. Description: 'Get more sales with features like gift cards, professional reports, and abandoned cart recovery.' Credit card rates: Online: 2.6% + 30c, In Person: 2.5% + 0c. Staff accounts: 5.
- Advanced Shopify:** \$299/month. Description: 'Save time and money with our lowest credit card rates, advanced report builder and carrier calculated shipping.' Credit card rates: Online: 2.4% + 30c, In Person: 2.4% + 0c. Staff accounts: 15.

Red arrows point to the 'Choose this plan' button for the Shopify plan and the 'Staff accounts' section below it. A red box highlights the Shopify plan card.

STEP 3: Start your Tecademics Beginner Shopify Training

VISUAL EXAMPLE TO HELP SET UP SHIPPING RULES

A common question people ask is how to setup the shipping rules in their Shopify store. There are 3 areas of your store you want to make sure to adjust, so here you go:

1. **CARRIERS** - Make sure you “deactivate” any carriers that might be activated by default. If you have done this right, the screen should say “activate shipping addresses” which means that it’s deactivated.

Carriers

Carriers return accurate shipping rates for your customers at checkout. Activate carriers to add carrier-calculated rates to your shipping zones.

Enable carrier-calculated shipping at checkout

Carrier-calculated shipping lets you provide shipping rates directly from USPS, FedEx, and UPS, according to the package destination, weight, and dimensions.

[Activate shipping estimates](#)

2. **PACKAGES** - Set the default weight to 0.0 lb. This must be done so that it doesn't mess up the other shipping settings.

Packages

The package sizes you use to ship your products and purchase shipping labels. Weight and dimensions of the default package are used when calculating shipping rates at checkout.

3. **ZONES AND RATES** - Setup rules for your free+shipping products, your regular shipping products, your combination of products in the cart. This is just an example to model after.

4. **WEIGHT BASED SHIPPING (NO PRICE BASED SHIPPING)** - Make sure you give each product a weight when you add it to your store, this way it will apply the appropriate shipping price to it. For example, a free+shipping product could weigh 0.1 while another product you are selling for \$25 could weigh 1.0. This will apply the appropriate shipping amount to the product.
5. **SET ORDER LIMITS** - Make sure customers can't add more than "x" amount of free products. A good limit to set by default would be 4 free products per customer. You can use apps like "Order Limits" in the app store to help set this up. Tecademics will be offering apps to do this very soon.

CASE STUDY: \$50,000 IN FIRST 38 DAYS ON SHOPIFY!

Are you ready to hear an amazing case study AND see some actual screenshots?

Amanda M. from California joined Tecademics less than 2 months ago.

She was inspired after watching some of the free training videos by Chris Record, the CEO & Founder.

Amanda was a struggling musician in Los Angeles, doing weekend gigs just barely making ends meet.

She desperately needed to change her financial situation so she decided to give Tecademics a shot and focus on building her first e-commerce site.

With the help of training from Tecademics Ecom Power Team member Jon Alfredsson, she learned how to set up her first Shopify store and load it up with products from a wholesaling site.

She marked up the price of the products so that she could make a good commission each time one was sold.

Then she started running Facebook Ads traffic to the products and began making sales!

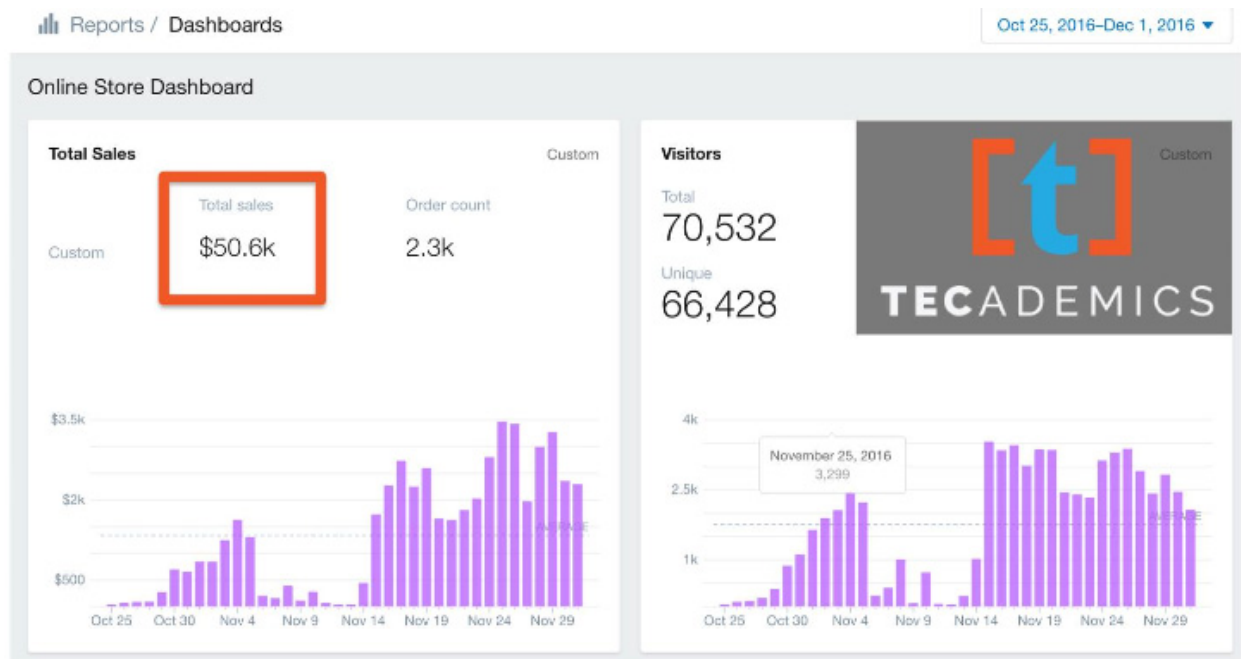

Here is a summary of some of the milestones with her first ever store:

- **Day 1** - She got her first Sale!
- **Day 6** - She crossed \$1,000 in total sales.
- **Day 10** - She had her first \$1,000 day!
- **Day 13** - Her Facebook account got disabled (no traffic, no sales).
- **Day 22** - Her Facebook account got reinstated (traffic & sales began again).
- **Day 27** - Amanda shared her story at Tecademics Las Vegas event and she was at \$22,600 in total sales.

- **Day 38** - On December 1 she reached a new milestone with over \$50,000 in total sales!

Now her store is averaging roughly \$3,000 per day and she is ready to scale up like crazy!

**Disclaimer: Amanda's results are not typical or average, and we can not guarantee that other people will get the same results. Results may vary.*

How would YOU like to be the next testimonial that we feature here at Tecademics? It all starts with a decision to Take Massive Action and get results.

And remember, this is just a bonus for purchasing the Ecom Incubator program.

On top of this bonus you get 25 days per year to attend in-person working out of our offices.

If you have questions (and you will), there will be an Ecom advisor that can assist you with everything.

This is the perfect opportunity for someone who wants hands-on help with their business.

And are you ready for the best part?

We will GUARANTEE that you will get results or you can request a 100% refund on your purchase!

We have a momentum guarantee where we will meet you halfway.

The cost to join the Ecom Incubator program is \$25,000 per year (good for 2 people).

We will meet you halfway and guarantee we can get your business up to \$12,500 in sales generated through our program.

If we can't help you get there, then you can request a refund for your total cost to join the program.

Pretty awesome right?

That's how much we believe in our hands-on training.

The Ecom Incubator is \$25,000 to join and is good for 2 people.

If you don't personally have the funds, then you may want to find someone to partner with you to help fund the program.

If you do have the funds, but don't have the time to attend, then you may want to find a partner with time to help participate in the program.

We are accepting attendees on an Application Only Basis.

Not everyone will be approved, only motivated candidates will be considered.

If you would like a chance to participate in the next round of Ecom Incubator students, click the link below to apply.
